

Learn to Build Effective Flow Devices to Prevent Culvert Plugging and Manage Beaver Pond Levels

A Free Hands-on Workshop

❖ **Thursday, August 8th**: Sweeny Cr, Helena, MT:

Learn to build a “Beaver Deceiver” culvert protection structure at a highway culvert

Sponsored by Lewis and Clark County Water Quality Protection District, Lake Helena Watershed Group, Great West Engineering, and Montana DEQ.

DETAILS

Workshop starts **Thursday, August 8th** at **8:30 A.M.** at the Ten Mile Water Plant and will go until the structure is complete or 4:30 pm.

- Lunch will be provided by the Lake Helena Watershed Group
- Lunch Presentation by: Amy Chadwick, Great West Engineering

DIRECTIONS TO SITE

Ten Mile Water Plant. Driving West on HWY 12 from Helena (linked to Google maps)

- Take Hwy 12 west toward Missoula.
- Immediately before Mac Pass turn left on Rimini Rd.
- Turn left into Ten Mile Water Treatment Plant.

EQUIPMENT TO BRING

Expect to spend most of the day outside. Bring all personal equipment necessary to deal with the weather conditions. We will be providing tools and materials for installation. In addition to your personal gear, please bring:

- Work Gloves
- Waders or hip boots
- Water
- Sunscreen/bug spray

Please RSVP to Jennifer McBroom, JMcBroom@lccountymt.gov, to secure a spot.
